

Aegex API Terms of Use

IMPORTANT – READ CAREFULLY:

These Aegex API Terms of Use (“Terms”) describe the terms and conditions under which the Aegex group of entities, including all direct and indirect subsidiaries and affiliates that are controlled or are under common control with Aegex Technologies, LLC (collectively, “Aegex” or “we”) grant the user (“you”) the right to access and use the application programming interfaces or similar development tools, which establish an interface with Aegex’s products and services (“APIs”) that are made available by Aegex. If you use the APIs in conjunction with other Services (as defined below), then the terms applicable to those Services also apply. By completing any applicable registration process or by accessing or using any APIs offered by Aegex, you represent that you: (i) have the authority to bind the party using the APIs; and (ii) have read, understand, and agree to the Terms unless otherwise set forth in a separate written agreement between you and Aegex.

We may update these Terms from time to time. Your continued access to and use of any APIs constitutes your acceptance of the then-current Terms. If you do not agree with any modifications to these Terms, your only recourse is to discontinue your use of any APIs.
